Address: 19 Mai 1956, Baba Hassen, 16081, Algiers, Algeria (Home)

WORK EXPERIENCE

FULL STACK DEVELOPER INTERN – TINITEC – 27/04/2025 – 31/10/2025 – ALGIERS, ALGERIA

- Designed, developed, and implemented new functionalities for web applications using **PHP** and **JavaScript** technologies.
- Built **ergonomic, responsive**, and **cross-browser compatible** user interfaces.
- Ensured the **stability, security, and performance** of client applications through corrective and evolutionary maintenance.
- Diagnosed and resolved application anomalies and bugs.

Key Projects:

- **Email Web App:** Integrated **AI-powered summarization** and **text generation** features with subscription plan management.
- **Landing Page + Admin Panel:** Built a dynamic landing page fully managed from a **custom admin dashboard**.
- **Multi-step Form + PDF Generator:** Developed an interactive client form that automatically generated **PDF reports**.
- **Internal Management Tool:** Created an internal app for managing **leave requests, equipment tracking**, and **intern records**.

ACTIVE MEMBER – PROJECT INITIATIVE – 10/10/2022 – 30/06/2024 – ALGIERS, ALGERIA

Multifunctional Team Member

Human Resources & External Relations Departments.

Responsibilities:

- Led the organization of the “Entrepreneurial Week” event as Team Leader, coordinating planning, logistics, and team management.
- Planned and delivered workshops tailored to club members’ needs, enhancing their personal and professional development.
- Organized multiple internal and external events, contributing to concept development and execution.
- Created engaging content as a LinkedIn post writer and designed visual materials for Instagram, supporting the organization’s branding and outreach efforts.

PROJECTS

06/07/2025 – 10/09/2025

Midwink

A web-based email platform inspired by Gmail, featuring **AI-powered summarization** and **email generation** based on user prompts.

Contributions:

- Implemented **AI summarization** and **text generation** using modern NLP models.
- Developed core **email functionalities** such as sending, replying, forwarding, archiving, and starring messages.
- Integrated **subscription management** with **Paddle** for payment processing.
- Collaborated on UI/UX improvements to ensure a smooth, Gmail-like experience.

SNRV

A dynamic **landing page and content management system** built for a **government company**, allowing administrators to manage all website data from a centralized dashboard.

- **Contributions:**
 - Built a **custom multi-language admin panel** using **Filament (Laravel)** for complete control over website content — including titles, text, images, services, products, and organizational units.
 - Displayed and dynamically rendered data on the **frontend** based on admin updates.

● **Link** <https://snrv-demo.tinitec.com>

● **SpecBuilder**

- **Overview**

This was an update and upgrade for an existing project built with Laravel and Livewire. My job was to add a page showcasing all the services and a dynamic form based on the service selected. At the end it generates a PDF with the information has been filled in, and an optional email notification.
- **Outcomes**
 - Using Email notification
 - Generating and styling PDFs and populate it with real data from a database

● **SKILLS**

- **Front-end**

HTML | Vue.js | Pinia | tailwindcss | Version Control System (Git) | Github | Nuxt.js | React.js (Begginer)
- **Back-end**

php | JavaScript | TypeScript | Laravel | Filament | inertia.js | Node.js | Express.js | PostgreSQL | MySQL | drizzle ORM | Restful API | Docker
- **Soft Skills**

Good Communication | Ability to work independently and collaboratively | Time management and organizational skills | Event planning and coordination | Problem-solving and critical thinking | Customer service and client support | Basic Foundation UI/UX

● **EDUCATION AND TRAINING**

- 01/09/2022 – 26/06/2024 Algiers, Algeria
MASTER'S RADIO MOBILE NETWORK Sciences and Technology University Houari Boumediene (USTHB)
- 01/10/2019 – 30/06/2022 Algiers, Algeria
BACHELOR'S TELECOMMUNICATION ENGINEERING Sciences and Technology University Houari Boumediene (USTHB)
- **FOUNDATIONS OF USER EXPERIENCE (UX) DESIGN** Google
- **Website** coursera.org/verify/VDFWQCJG5UCV

● **LANGUAGE SKILLS**

Mother tongue(s): **ARABIC**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C1	B2	B2	B2	B2
